Accreditations		
Handle Special Waste		
WAMITAB CTCO Personnel		

Collection	Dependent on volumes
Minimum Volume	Depends on the material. Not going to travel to collect a few processors – have a transit van and would look to fill it to a reasonable level.
Maximum Volume	In theory no maximum to the amount they would undertake – limiting factor is how much is wanted to be moved how quickly.
Collection Costs	For low volumes would charge £75 per van load (or part thereof) – potentially waive this if it was going to be a long term high volume project.
Recycle only	No recycle and refurbish.
CD Roms	
Floppy Drives	
Battery Packs	
Notes	Would like to visit McSense, see type of material looking at to dispose of and volumes involved to enable more accurate quotations.

Company	MGH Group
Contact Name	Pat Weir
Address	
Hard Drives	£5 / unit
Monitors	£4 / unit
Motherboards/Printed Circuit Boards	£35 per 15 kg
Batteries	£4 / unit
